

Evaluating the Teaching Action Plan

- ✓ **Specificity**

Have you (or your partner) identified specific short and long term goals?

Are the goals definite and precise?

- ✓ **Measurability**

Are the goals quantifiable?

Is it clear how success will be measured?

- ✓ **Reality Check**

Are the goals realistic?

Is there a specified completion date?

Can success be achieved within the time allocated?

Will additional resources or tools be needed to achieve success?
